TERMS & CONDITIONS

1. Agreement to Sell and Purchase Energy. This is an agreement between American Power & Gas LLC ("AP&G"), an independent energy services company, and the undersigned customer ("Customer") under which Customer shall initiate electricity service and begin enrollment with AP&G (the "Agreement"). Subject to the terms and conditions of this Agreement, AP&G agrees to sell and deliver, and Customer agrees to purchase and accept the quantity of electricity, as estimated by AP&G, necessary to meet Customer's requirements based upon consumption data obtained by AP&G from the delivery schedule of your Local Distribution Company or "LDC" (your electric Utility Company). Note: AP&G is not affiliated with and does not represent the LDC.

2. Term. This Agreement's start date will begin on the date the utility switches your account(s) to AP&G and continue for 12 billing cycles thereafter (the "Initial Term"). Unless otherwise agreed to, upon completion of the Initial 12-month Term, and with affirmative consent this Agreement will automatically switch to a renewable variable rate methodology and continue until terminated by either party. Two notices will be sent no less than 30 days or more than 90 days prior to the contract expiration.

3. Rate/Billing. The price per kWh for all electricity sold to the customer during the term under this Agreement is as stated in the above disclosure.

Billing: AP&G will invoice Customer monthly for electricity supplied under this Agreement, as measured by the Local Distribution Company (LDC) (this is your local utility company). Customer will receive a single bill for both commodity and delivery costs from your local utility company/LDC. AP&G may assign and sell Customer accounts receivable to the LDC. As applicable, the LDC will handle your budget billing service. In the event of failure to remit payment when due by a residential customer, AP&G may terminate commodity service and seek suspension of distribution service in conformance with the Home Energy Fair Practices

Act ("HEFPA"). Failure by a commercial customer to make full payment of AP&G charges due on any consolidated bill prepared by the LDC for AP&G will be grounds for disconnection of utility services in accordance with NYPSC rules and regulations on the termination of service to non-residential customers, 16 NYCRR Section 13.3.

3.1 Renewable Energy Product. Electric customers are guaranteed that 50% of your electricity usage is matched by the generation of energy from renewable resources by retiring renewable energy certificates (RECs). RECs represent the environmental attributes associated with the applicable amount of renewable energy generation from various renewable sources that comply with the appropriate locational and delivery requirements. RECs will be purchased and retired to satisfy the percentage of renewable generation guaranteed by this agreement. The renewable mix provided under this agreement must be at least 50% greater than the applicable Renewable Energy Standard (RES) obligation for the current year. In order to satisfy the terms of this contract, RECs must be purchased from eligible renewable generators through NYGATS or by purchasing eligible RECs from NYSEDA or by procuring RECs from eligible renewable generators through bilateral contracts or by entering into bundled energy and REC purchase agreements with eligible renewable generators or by making Alternative Compliance Payments to NYSEDA.

4. Credit/Security Deposit. The customer acknowledges that AP&G has the right to administer a credit review prior to providing the service(s) listed within this agreement. The result of the check may determine that a security deposit or other credit assurances is required. The amount determined due by AP&G shall be paid within ten (10) days of the date the request is made. If you fail to make such a deposit within this timeframe, you will not be enrolled for service with AP&G.

5. Load Changes. The customer will give AP&G a minimum of 30-day notice of any significant load change in its usage, including, but not limited to the sale or closure of a site. AP&G will use the load information from your utility company to purchase power for you, the customer, and as the customer, you are responsible for payment of any actual damages incurred as a result of such changes. If the Customer has a change in usage over 15%, the customer will pay for the increase in Load at AP&G's full cost of providing that usage, plus margin. If the Customer has a change in usage below 15%, the customer will pay the full cost of liquidating that load. AP&G will calculate the amount of such costs in a reasonable manner and submit an invoice to the customer which will be due and payable (within thirty (30) days). AP&G reserves the right to cancel any account that falls 15% above or below the usage established at the start of this agreement.

6. Termination. In order for AP&G to supply fixed price electricity, long term supply arrangements are made with generators of electricity to meet the forecasted consumption of you, the customer. If the customer cancels/terminates this agreement for any reason, there is no early termination fee (ETF). In the event the customer is deceased before the end of the contract term, no fee for termination or early cancellation will be assessed.

7. Regulatory Changes/Rate Changes. This Agreement is subject to present and future legislation, orders, rules, regulations or decisions of a duly constituted governmental authority having jurisdiction over this Agreement or the services to be provided hereunder. If at some future date there is a change in any law, rule, regulation, tariff, or regulatory structure ("Regulatory Change") which impacts any term, condition or provision of this Agreement including, but not limited to your rate, AP&G shall have the right to modify this Agreement upon affirmative consent to reflect such Regulatory Change by providing 30 days' written notice of such modification to the Customer.

8. Assignment. Customer may not assign its interests in and delegate its obligations under this Agreement without the express written consent of AP&G. AP&G may sell, transfer, pledge, or assign the accounts, revenues, or proceeds hereof, in connection with any financing agreement or receivables purchase program, and may assign this Agreement to another energy supplier, energy services company or other entity as authorized by the DPS (Department of Public Service).

This information may be used by AP&G to determine whether it will commence and/or continue to provide energy supply service to Customer and will not be disclosed to a third party unless required by law. Customer's execution of this Agreement shall constitute authorization for the release of this information to AP&G. This authorization will remain in effect during the Initial Term and any Renewal Term.
